## Contents

## Introduction

Welcome To this special endeavour, where i write every single thing in  $\text{\LaTeX}$  How is any of this gonna work?

Simple: With patience and a format definition. Therefore, please let me define the format of this.

## THE FORMAT

- Every file will be named similar to the sections in here, so `2.1-stack_exercise.c` is Exercise 2, section 1.
- Every Solution **WILL** be in this pdf, but not necessarily anything predefined by the exercise.
- Any explanation will be both in this PDF as well as in each file.
- This explanation will be in each PDF, in case someone who doesn't know the format tries to correct the exercises
